

Urologic Surgical Pathology, 2008, 1026 pages, David G. Bostwick, Liang Cheng, 0323019706, 9780323019705, Elsevier Health Sciences, 2008

Completely revised with practical guidance in daily urological pathology sign-out and the latest recommended diagnostic approaches, the new edition of this comprehensive reference equips you to accurately diagnose specimens of the entire urinary tract and male reproductive system plus the adrenal glands. It begins with a look at normal anatomy and histology for each organ system...followed by discussions of the pathology of congenital anomalies, inflammations, non-neoplastic diseases and neoplasia. An emphasis on clinicopathologic and radiographic-pathologic correlations makes this a true diagnostic decision-making guide. A consistent format enables you to locate critical information quickly, and more than 1500 high-quality illustrations - most in full color - make diagnosis even easier. And now, as an Expert Consult title, this reference includes access to a companion web site offering this unparalleled guidance where and when you need it! Presents the practice-proven experience of today's authorities to enable you to diagnose with confidence. Limits coverage of general mechanisms of disease and anatomy to the most relevant information needed to fully comprehend the clinical picture. Includes boxed lists of types and causes of diseases, differential diagnosis, characteristic features of diseases, complications, classifications, and staging that help you quickly locate the specific information you need. Includes access to a companion web site offering the complete contents of the book - fully searchable - for rapid consultation from anyplace with an Internet connection. Features a downloadable Online Image Collection that you can use to enhance your presentations. Presents two brand-new chapters covering urinary cytology and fine needle aspiration to keep you up to date. Covers newly described entities and application of ancillary study for precise diagnosis. Features integration of new molecular techniques and immunohistochemical analysis for differential diagnosis. Equips you with the latest recommended diagnostic approaches help you make the most informed decisions. Provides you with a critical review of the current classifications of cancer and disease. Features more than 1500 high-quality illustrations - in full color - providing a complete visual perspective of the conditions encountered in pathology. Your purchase entitles you to access the web site until the next edition is published, or until the current edition is no longer offered for sale by Elsevier, whichever occurs first. If the next edition is published less than one year after your purchase, you will be entitled to online access for one year from your date of purchase. Elsevier reserves the right to offer a suitable replacement product (such as a downloadable or CD-ROM-based electronic version) should access to the web site be discontinued.
